

# SIGMA 8&9

**ZERO EMISSION, ZERO COMPROMISE**

## THE SIGMA FAMILY

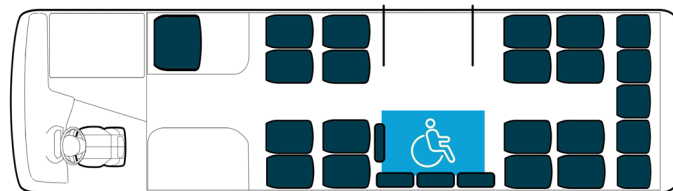

- British Design & Engineering
- Durability Tested at UTAC Millbrook
- Premium OEM parts
- Widths & Lengths for all operating environments
- Developed with customers in the UK & Europe
- Stainless Steel construction
- CATL Cobalt-free batteries

The Sigma family offers one of the largest ranges of low-floor battery-electric buses from any manufacturer in Europe.

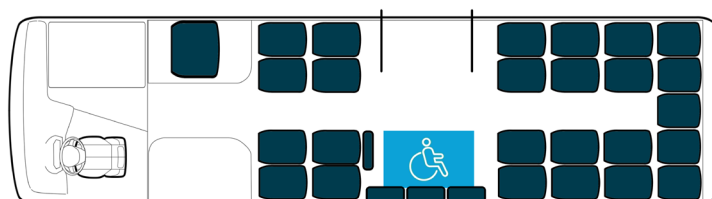

The range includes six models, from 7 to 12-metres, with GVWs from 9 to 19.5-tonnes, and the passenger capacity from 33 to 87.

Sigma represents a re-definition of public transport; a zero-emission, zero compromise solution, from a trusted, UK bus manufacturer.

## TYPICAL SIGMA 8 LOW FLOOR LAYOUT

## TYPICAL SIGMA 9 LOW FLOOR LAYOUT

## SIGMA 8 & 9 KEY FEATURES

	SIGMA 8	SIGMA 9
Two Door Low Floor	25 seats / 29 standees	29 seats / 31 standees
Overall Length (mm)	8725	9400
Overall Width (mm)	2350	
GVW (kgs)	13000	
Battery Chemistry	LFP (CATL)	
Battery Capacity (kWh)	210 / 255	
Range (kms)	Up to 300	
Charging	2x DC sockets	
Heating & Cooling	Air Conditioning to cab & saloon Heated windscreen	
Doors	Single Inward Glider front Double Inward Glider rear	
Accessibility	Manual ramp at rear	
Tyre size	265/70 R19.5
